Nota di contenuto	Cover; CONTENTS; GLOSSARY; SUMMARY, KEY FINDINGS, AND RECOMMENDATIONS; INTRODUCTION; A. Information and Methodology Used for Assessment; INSTITUTIONAL AND MARKET STRUCTURE-OVERVIEW; TABLES; 1. ISE Member Firms; 2. Numbers of Market Intermediaries; PRECONDITIONS FOR EFFECTIVE SECURITIES REGULATION; A. Main Findings; B. Summary Implementation of the IOSCO Principles-Detailed Assessments; RECOMMENDED ACTION AND AUTHORITIES' RESPONSE; A. Recommended Action; B. Authorities' Response to the Assessment; DETAILED ASSESSMENT; A. Detailed Assessment of Implementation of the IOSCO Principles
Sommario/riassunto	This Detailed Assessment of Observance assessment of Ireland was carried out using the 2011 International Organization of Securities Commissions (IOSCO) Methodology for Assessing Implementation of the IOSCO Principles. The legal framework is robust and provides the Central Bank of Ireland with broad supervisory, investigative and enforcement powers. There are arrangements for on-site and off-site monitoring of regulated entities. Thematic reviews in selected areas have complemented such monitoring. The Central Bank and the Irish Stock Exchange have also developed sound systems for market surveillance. Certain aspects of the legal provisions regarding the governance structure of the Central Bank of Ireland raise concerns about its independence, although there were no indications of any interference with day-to-day operations. The regime that applies to entities that have issued their securities to the public where their securities are not admitted to trading on a regulated market needs to be strengthened. The Central Bank of Ireland lacks the power to appoint administrators to investments firms in the event of financial difficulties within the firm.

Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	pt. 1. Conceptual prelude -- pt. 2. Medieval prologue -- pt. 3. The early years -- pt. 4. Post-Holocaust protocols : non-western variations -- pt. 5. Protocols at the turn of the millennium : the return of the repressed -- pt. 6. Quo vadis?
Sommario/riassunto	The Protocols of the Elders of Zion, first published in Russia around 1905, claimed to be the captured secret protocols from the first Zionist Congress in Basel in 1897 describing a plan by the Jewish people to achieve global domination. While the document has been proven to be fake, much of it plagiarized from satirical anti-Semitic texts, it had a major impact throughout Europe during the first half of the 20th century, particularly in Germany. After World War II, the text was further denounced. Anyone who referred to it as a genuine document was seen as an ignorant hate-monger. Yet there is abundant evidence that The Protocols is resurfacing in many places. The Paranoid Apocalypse re-examines the text's popularity, investigating why it has persisted, as well as larger questions about the success of conspiracy theories even in the face of claims that they are blatantly counterfactual and irrational. It considers the medieval pre-history of The Protocols, the

conditions of its success in the era of early twentieth-century secular modernity, and its post-Holocaust avatars, from the Muslim world to Walmart and Left-wing anti-American radicalism. Contributors argue that the key to The Protocols' longevity is an apocalyptic paranoia that lays the groundwork not only for the myth's popularity, but for its implementation as a vehicle for genocide and other brutal acts. The Protocols of the Elders of Zion, first published in Russia around 1905, claimed to be the captured secret protocols from the first Zionist Congress in Basel in 1897 describing a plan by the Jewish people to achieve global domination.
