

1. Record Nr.	UNINA9910483397203321
Titolo	Advances in structural vibration : select proceedings of ICOVP 2017 // Subashisa Dutta, Esin Inan, Santosha Kumar Dwivedy, editors
Pubbl/distr/stampa	Singapore : , : Springer, , [2021] ©2021
ISBN	981-15-5862-0
Edizione	[1st ed. 2021.]
Descrizione fisica	1 online resource (XIV, 580 p. 425 illus., 338 illus. in color.)
Collana	Lecture Notes in Mechanical Engineering
Disciplina	624.171
Soggetti	Structural dynamics Acoustical engineering
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Propagation of Viscoelastic Waves in a Single Layered Media with a Free Surface -- Axial Resistance of Short Built-Up Cold-Formed Steel Columns: Effect of Lacing Slenderness -- Analysis of Stepped beam Using Reduced Order Models -- Numerical Analysis of Geosynthetic Strengthened Brick Masonry panels -- Studies on Dynamic Characteristics of Sandwich Functionally Graded Plate Subjected to Non-Uniform Temperature Field. .
Sommario/riassunto	This book consists of selected and peer-reviewed papers presented at the 13th International Conference on Vibration Problems (ICOVP 2017). The topics covered in this book include different structural vibration problems such as dynamics and stability under normal and seismic loading, and wave propagation. The book also discusses different materials such as composite, piezoelectric, and functionally graded materials for improving the stiffness and damping properties of structures. The contents of this book can be useful for beginners, researchers and professionals interested in structural vibration and other allied fields.

2. Record Nr.	UNICAMPANIAVAN00298337
Autore	Rockafellar, Ralph T.
Titolo	Variational analysis / R. Tyrrell Rockafellar, Roger J-B. Wets ; with figures drawn by Maria Wets
Pubbl/distr/stampa	Berlin ; Heidelberg, : Springer, 1998 [stampa 2009]
Edizione	[Corr. 3. print]
Descrizione fisica	XIII, 733 p. : ill. ; 24 cm
Altri autori (Persone)	Wets, Roger J. B.
Soggetti	47-XX - Operator theory [MSC 2020] 49-XX - Calculus of variations and optimal control; optimization [MSC 2020] 52-XX - Convex and discrete geometry [MSC 2020] 54-XX - General topology [MSC 2020] 90-XX - Operations research, mathematical programming [MSC 2020]
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia

3. Record Nr.	UNINA9910961307703321
Autore	Valeriano Brandon
Titolo	Becoming Rivals : The Process of Interstate Rivalry Development / / by Brandon Valeriano
Pubbl/distr/stampa	Boca Raton, FL : , : Routledge, , 2013
ISBN	1-136-24530-8 0-203-10356-4 1-299-27927-9 1-136-24531-6
Edizione	[First edition.]
Descrizione fisica	1 online resource (187 p.)
Collana	Foreign policy analysis
Classificazione	POL000000
Disciplina	327.1/12
Soggetti	Balance of power International relations
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. [155]-161) and index.
Nota di contenuto	Becoming Rivals The Process of Interstate Rivalry Development; Copyright; Contents; List of Figures; List of Tables; Series Foreword; Acknowledgments; 1 Introduction: Rivalry and International Politics; 2 The Steps-to-Rivalry Model; 3 The Empirical Dynamics of the Steps-to-Rivalry Model; 4 Timing and the Steps-to-Rivalry Model; 5 The Complete Steps-to-Rivalry Model; 6 The Rivalry Story: Iraq and the United States; 7 What Do We Know about Rivalry Now?; Notes; References; Index
Sommario/riassunto	Rivalries are a fundamental aspect of all international interactions. The concept of rivalry suggests that historic animosity may be the most fundamental variable in explaining and understanding why states commit international violence against each other. By understanding the historic factors behind the emergence of rivalry, the strategies employed by states to deal with potential threats, and the issues endemic to enemies, this book seeks to understand and predict why states become rivals. The recent increase in the quantitative study of rivalry has largely identified who the rivals are, but not how they form and escalate. Questions about the escalation of rivalry are important if we are to understand the nature of conflictual interactions. This book

addresses an important research gap in the field by directly tackling the question of rivalry formation. In addition to making new contributions to the literature, this book will summarize a cohesive model of how all interstate rivalries form by using both quantitative and qualitative methods and sources.
