Sommario/riassunto	Building on a growing movement within developing countries in Latin America, Africa, and Asia-Pacific, as well as Europe and North America, this book documents cutting edge practice and builds theory around a rights based approach to women's safety in the context of poverty reduction and social inclusion. Drawing upon two decades of research and grassroots action on safer cities for women and everyone, this

book is about the right to an inclusive city. The first part of the book describes the challenges that women face regarding access to essential services, housing security, liveab
