Edizione	[1st ed.]
Descrizione fisica	1 online resource (290 p.)
Collana	Oxford scholarship online
Disciplina	634.8
Soggetti	Soils Viticulture Wine and wine making
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Previously issued in print: 2003.
Nota di bibliografia	Includes bibliographical references (p. 265-270).
Nota di contenuto	Contents; 1 Soil and the Environment; 2 The Makeup of Soil; 3 The Vine Root Habitat; 4 How the Soil Supplies Nutrients; 5 Nutrients for Healthy Vines and Good Wines; 6 Soil-Water-Vine Relationships and Water Management; 7 Soil Quality in Vineyards; 8 Site Selection and Soil Preparation; 9 Soil and Wine; Appendices; References; Index
Sommario/riassunto	An essential component of terroir is soil and the interaction between it, local climate, vineyard practices, and grape variety on the quality of grapes and distinctiveness of their flavor. This book considers that component, providing basic information on soil properties and behavior in the context of site selection for new vineyards and on the demands placed on soils for grape growth and production of wines.
