Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Introduction -- Measurement -- Information and communications technology -- Care coordination -- Patient self-management support -- Finance -- Coalition building -- Condition-specific action plans -- Next steps.
Sommario/riassunto	In January 2004, the Institute of Medicine (IOM) hosted the 1st Annual Crossing the Quality Chasm Summit, convening a group of national and community health care leaders to pool their knowledge and resources with regard to strategies for improving patient care for five common chronic illnesses. This summit was a direct outgrowth and continuation

of the recommendations put forth in the 2001 IOM report Crossing the Quality Chasm: A New Health System for the 21st Century . The summit's purpose was to offer specific guidance at both the community and national levels for overcoming the challenges to the provision of high-quality care articulated in the Quality Chasm report and for moving closer to achievement of the patient-centered health care system envisioned therein.
