

1. Record Nr.	UNINA9910961759803321
Titolo	How people learn : bridging research and practice / / M. Suzanne Donovan, John D. Bransford, and James W. Pellegrino, editors ; Committee on Learning Research and Educational Practice, Commission on Behavioral and Social Sciences and Education, National Research Council
Pubbl/distr/stampa	Washington, DC, : National Academy Press, c1999
ISBN	9780309185844 030918584X 9780309519465 0309519462 9780585243375 0585243379
Edizione	[1st ed.]
Descrizione fisica	1 online resource (88 p.)
Altri autori (Persone)	BransfordJohn PellegrinoJames W DonovanSuzanne
Disciplina	370.15/23
Soggetti	Learning - Research Learning, Psychology of Learning - Social aspects
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. 65-69).
Nota di contenuto	""Front Matter""; ""Acknowledgments""; ""Contents""; ""Summary""; ""2 Key Findings""; ""3 Responses from the Education and Policy Communities""; ""4 Proposing a Research and Development Agenda""; ""References""; ""A Meeting Participants""; ""B Biographical Sketches""
Sommario/riassunto	How People Learn: Bridging Research and Practice provides a broad overview of research on learners and learning and on teachers and teaching. It expands on the 1999 National Research Council publication How People Learn: Brain, Mind, Experience, and School, Expanded Edition that analyzed the science of learning in infants, educators, experts, and more. In How People Learn: Bridging Research and

Practice, the Committee on Learning Research and Educational Practice asks how the insights from research can be incorporated into classroom practice and suggests a research and development agenda that would inform and stimulate the required change. The committee identifies teachers, or classroom practitioners, as the key to change, while acknowledging that change at the classroom level is significantly impacted by overarching public policies. *How People Learn: Bridging Research and Practice* highlights three key findings about how students gain and retain knowledge and discusses the implications of these findings for teaching and teacher preparation. The highlighted principles of learning are applicable to teacher education and professional development programs as well as to K-12 education. The research-based messages found in this book are clear and directly relevant to classroom practice. It is a useful guide for teachers, administrators, researchers, curriculum specialists, and educational policy makers.
