

1. Record Nr.	UNINA9910962192203321
Autore	Leichhardt Ludwig <1813-1848.>
Titolo	The letters of F. W. Ludwig Leichhardt . Volume I // edited by M. Aourousseau
Pubbl/distr/stampa	Farnham, Surrey ; ; Burlington, VT, : Ashgate [London], : Hakluyt Society, 2010
ISBN	1-317-02577-6 1-283-16944-4 9786613169440 1-4094-1738-7
Descrizione fisica	1 online resource (xvi, 423 pages) : illustrations, maps
Altri autori (Persone)	AourousseauMarcel <1891-1983.>
Soggetti	Explorers - Germany Voyages and travels Australia Discovery and exploration
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Originally published: Cambridge University Press, 1968. "Collected and newly translated [from the German, French and Italian]". English translation follows letters in their original language.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	COVER; FRONTISPIECE; CONTENTS; MAPS; INTRODUCTION; THE LETTERS; I. Germany; 1. Surroundings of Trebatsch in the Mittelmark of Brandenburg, Prussia; 2. Geological Excursions on foot in the Harz Mountains, 1836; II. Into Exile; 3. Journey on foot in Somerset and Devon. 1837; 4. Journey, mainly on foot, through France, Switzerland and Italy. 1940-1941; APPENDIXES; CONTRACTIONS AND ABBREVIATIONS USED IN APPENDIXES; I. TABLE OF EVENTS AND MOVEMENTS 1770-1841; II. ANNOTATED CALENDAR OF LETTERS DECEMBER 1832- OCTOBER 1841
Sommario/riassunto	Ludwig Leichhardt is chiefly known as the most important of the scientific explorers of Australia. His lively but detailed letters provide a narrative of his life from his student days in the mid-1830s until 1848 when he disappeared in the Australian interior. Leichhardt's main interest was natural philosophy, particularly biology, geology and

geography, but as a scholar of nature in the widest sense, he closely observed and recorded many aspects of the surrounding world, describing social life in early Victorian England and commenting on some of the leading teachers and philosophers of the day. However, the primary purpose of his studies in German, England, Paris and Naples was to equip himself as a scientific explorer. The idea of exploring Australia was evolved and closely planned with his great friend William Nicholson. Leichhardt sailed for Australia in 1841. Volume 2 of this work describes his scientific reconnaissance in eastern Australia, undertaken alone during 2 years. The final volume is concerned with his major explorations: the successful expedition to Port Essington in northern Australia, during which he investigated the topography, geology and botany of the country, and his last two attempts to cross the continent from East to West. His last party disappeared without trace in 1848. Mr Aurousseau has collected together all Leichhardt's known letters, and translated those written in German, French or Italian. He provides a brief account of Leichhardt's life, a chronology of his movements and a bibliography of works relating to him. Leichhardt has been the object of much ill-informed criticism, and the editor's main purpose is to establish an authentic text, enabling the man to speak for himself. These letters also prepare the way for the publication of Leichhardt's journal. Full texts of all letters, together with translations of those in German, French and Italian. This volume contains the letters written while in Germany, 1832-7, and between 1837 and Leichhardt's departure for Sydney in 1841. Continued in the following volumes (Second Series 134, 135), with which the main pagination is continuous. This is a new print-on-demand hardback edition of the volume first published in 1968.
