Sommario/riassunto	In this revealing book, Lance Freeman sets out to answer a seemingly simple question: how does gentrification actually affect residents of neighborhoods in transition? To find out, Freeman does what no scholar before him has done. He interviews the indigenous residents of two predominantly black neighborhoods that are in the process of gentrification: Harlem and Clinton Hill, Brooklyn. By listening closely to what people tell him, he creates a more nuanced picture of the impacts of gentrification on the perceptions, attitudes and behaviors of the people who stay in their neighborhoods. Sommario/riassunto

The essays in this volume focus on the interpretation of the Book of Psalms and comparable texts in the Hebrew Bible. A variety of methods is applied to the ancient texts. Some essays concentrate on composition and structure, others on redaction and context. It is of great interest to see that each approach has its strength and its limits: stressing the importance to read the Psalms with a multi-dimensional matrix of methods. By viewing the Psalms as prayers, and thus as expressions of both faith and despair, a perspective on the contents of the ancient hymns and their functions in daily life has been opened. This volume contains various incentives for future research.
