Sommario/riassunto	The transition from a command economy to a capitalist market economy has entirely altered the industrial landscape in which Chinese trade unions have to operate. This book focuses on how the All China Federation of Trade Unions (ACFTU) is reforming under current conditions and demonstrates that labour unrest is the principal driving force behind trade union reform in China. Presenting case studies where reform has been largely inspired by the pressure of worker activism from below, the book examines three crucial areas of trade union activity - collective bargaining, labour rights and trade
