| Nota di contenuto       | Introduction : the nature of biblical law -- Looking at Leviticus : Leviticus 10-14 -- Genital impurity in the lineages of David and Jonathan : Leviticus 15 -- The Day of Atonement : Leviticus 16 -- The slaughter of animals : Leviticus 17:2-9 -- The blood taboo : Leviticus 17:10-16 -- Mourning and marriage rules for priests : Leviticus 21 -- Life and lies of David : Leviticus 22 and 23 -- Blasphemies : Leviticus 24 -- The Year of Jubilee : Leviticus 25 -- Three laws on the release of slaves : Exodus 21:2-11, Deuteronomy 15:12-18, and Leviticus 25:39-46. |
| Sommario/riassunto      | He contends that biblical laws did not emerge from social imperatives in ancient Israel, but instead from the careful, retrospective study of the nation's history and identity.                                                                                                                                                                                                                                                                                                                                                                                                |
