Sommario/riassunto	"Ibadi Islam is a distinct sect of Islam, neither Sunni nor Shi'ite, that emerged in the early Islamic period and remains active today in small pockets of North Africa and as the dominant sect of Oman. Despite its antiquity, it has often been misunderstood and remains little known. Seeking to redress this gap and to introduce this influential Islamic school to the non-Arabic-speaking world, Hoffman offers the first book-length overview of Ibadi theology published in English. Beginning with a concise overview of Ibadi history, Hoffman delineates the sectarian movement's role in the development of Islamic thought,

tracing its distinctive teachings and literary history. In the second section, she provides annotated translations of two complementary modern Ibadi theological texts. This unique volume elucidates the religious and political thought by allowing the Ibadi tradition to speak for itself. The Essentials of Ibadi Islam gives readers, specialists and nonspecialists alike, a rare opportunity to understand the major teachings of Ibadi Islam."--Publisher's website.

century pioneers in the field. Entries cover biographical information, as well as the subjects' work, providing a unique guide to the many and varied contributions these women have made to economics.||Joan Robinson was one of the most significant economists of

Sommario/riassunto	This edited volume explores human security challenges in the context of Turkey. Turkey occupies a critical geopolitical position between Europe, the Middle East and the Caucasus. It is an important peace-broker in regional conflicts and a leading country in peacekeeping operations, and has been a generous donor for disaster response around the world. However, Turkey is also facing a number of fundamental sociocultural and development challenges and its internal stability is affected by a protracted armed conflict based on Kurdish separatism. In other words, Turkey is at a crossroads in its

transformation from a state-centred security perspective to one based on human security. To explore selected human security challenges within a wider context of peace and development, this volume focuses on a number of key issues in relation to democratization and social cohesion, before going on to investigate the role of Turkey as an agent of peace in the international context. Written by academics from the fields of peace studies, international relations, politics and development studies, the discussions examine and highlight the issues that Turkey must overcome if it is to successfully strengthen its human security trajectories in the near future. This book will be of much interest to students of human security, Turkish politics, conflict management, peace studies and IR in general.
