**Sommario/riassunto**

This volume contains sixteen contributions from the fourth conference  
on the Foundations of Arabic linguistics (Genova, 2016), all having to  
do with the development of linguistic theory in the Arabic grammatical  
tradition, starting from Sbawayhi's *Kitb* (end of the 8th century C.E.)  
and its continuing evolution in later grammarians up till the 14th  
century C.E. The scope of this volume includes the links between  
grammar and other disciplines, such as lexicography and logic, and the  
reception of Arabic grammar in the Persian and Malay linguistic  
tradition.
