Niche and Regime; 11 Out of the Factory and Into the Fish Pond: Can
Certification Transform Vietnamese Pangasius?; 12 Food Systems Under
Pressure: Regulatory Instabilities and the Challenge of Sustainable
Development; 13 Food Futures in the Making; Contributors; Index

Sommario/riassunto

"This edited volume presents and reflects upon empirical evidence of
"sustainability"-induced and -related transition in food practices. The
material collected in the various chapters contributes to our
understanding of the ways in which ideas and preferences,
sociotechnological developments and changes in the governance of
food interact and become visible in practices of consumption, retail and
production."--
