Sommario/riassunto	Considerable effort and money are devoted to developing alternative energy sources, such as wind power, solar power, cellulosic ethanol, and biofuels. This ebook is a collection of research papers on alternative energy sources presented at the Economics of Alternative Energy Sources and Globalization: The Road Ahead Conference that was held in November 2009 in Orlando, Florida. Thirty-three papers were presented by leading experts in the field, with about half being published in the e-book. Several of the papers explored the economics

of biofuels produced from corn, sugarcane, and/or forestry
