

1. Record Nr.	UNIBAS000022793
Autore	Masini, Ferruccio
Titolo	Coralì e monodie / Ferruccio Masini
Pubbl/distr/stampa	Firenze : Tip. Il Cenacolo, stampa 1953
Descrizione fisica	39 p. ; 18 cm
Collana	Quaderni dell'Arlecchino ; 1
Disciplina	851.914
Lingua di pubblicazione	Italiano
Formato	Materiale a stampa
Livello bibliografico	Monografia
2. Record Nr.	UNINA9910963035303321
Autore	Logsdon Gene
Titolo	All flesh is grass : the pleasures and promises of pasture farming // Gene Logsdon
Pubbl/distr/stampa	Athens, : Swallow Press/Ohio University Press, c2004
ISBN	0-8040-4013-3
Edizione	[1st ed.]
Descrizione fisica	1 online resource (276 p.)
Disciplina	633.2/02
Soggetti	Pastures Forage plants Grazing
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references (p. 253-254) and index.
Nota di contenuto	Intro -- Contents -- Preface -- Giving Thanks -- Acknowledgments -- 1 -- 2 -- 3 -- 4 -- 5 -- 6 -- 7 -- 8 -- 9 -- 10 -- 11 -- 12 -- 13 -- 14 -- 15 -- 16 -- 17 -- 18 -- 19 -- 20 -- 21 -- 22 -- Bibliography -- Index.

Amidst Mad Cow scares and consumer concerns about how farm animals are bred, fed, and raised, many farmers and homesteaders are rediscovering the traditional practice of pastoral farming. Grasses, clovers, and forbs are the natural diet of cattle, horses, and sheep, and are vital supplements for hogs, chickens, and turkeys. Consumers increasingly seek the health benefits of meat from animals raised in green paddocks instead of in muddy feedlots. In *All Flesh Is Grass: The Pleasures and Promises of Pasture Farming*, Gene Logsdon explains that well-managed pastures are nutritious and palatable--virtual salads for livestock. Leafy pastures also hold the soil, foster biodiversity, and create lovely landscapes. Grass farming might be the solution for a stressed agricultural system based on an industrial model and propped up by federal subsidies. In his clear and conversational style, Logsdon explains historically effective practices and new techniques. His warm, informative profiles of successful grass farmers offer inspiration and ideas. His narrative is enriched by his own experience as a "contrary farmer" on his artisan-scale farm near Upper Sandusky, Ohio. *All Flesh Is Grass* will have broad appeal to the sustainable commercial farmer, the home-food producer, and all consumers who care about their food.
