disorders / Viola M. Frymann -- Craniosacral therapy / Ginger Nash --

Music therapy / Concetta M. Tomaino -- Art therapy / Steven C.

Schachter and Elizabeth Coss -- Pet therapy / Stephen W. Brown.

Sommario/riassunto

Epilepsy is a difficult illness to control; up to 35% of patients do not respond fully to traditional medical treatments. For this reason, many sufferers choose to rely on or incorporate complementary and alternative medicine (CAM) into their treatment regimens. Written for physicians, knowledgeable laypersons, and other professionals, Complementary and Alternative Therapies for Epilepsy bridges the worlds of traditional medicine and CAM to foster a broader perspective of healthcare for patients. The book respects cultural differences that may incorporate alternative medicine into a medical ma
