Soggetti	National security - Law and legislation - United States Civil rights - United States Terrorism - United States - Prevention National security - Law and legislation - Great Britain Terrorism - Great Britain - Prevention Terrorism - Prevention - International cooperation
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from publisher's bibliographic system (viewed on 05 Oct 2015).
Nota di bibliografia	Includes bibliographical references (p. 361-467) and index.
Nota di contenuto	The Perilous dichotomy -- Indefinite detention and coercive Interrogation -- Financial counterterrorism -- Privacy and surveillance -- Terrorist speech and free expression -- Auxiliary precautions.
Sommario/riassunto	In the aftermath of a terrorist attack political stakes are high: legislators fear being seen as lenient or indifferent and often grant the executive broader authorities without thorough debate. The judiciary's role, too, is restricted: constitutional structure and cultural norms narrow the courts' ability to check the executive at all but the margins. The dominant 'Security or Freedom' framework for evaluating

counterterrorist law thus fails to capture an important characteristic: increased executive power that shifts the balance between branches of government. This book re-calculates the cost of counterterrorist law to the United Kingdom and the United States, arguing that the damage caused is significantly greater than first appears. Donohue warns that the proliferation of biological and nuclear materials, together with willingness on the part of extremists to sacrifice themselves, may drive each country to take increasingly drastic measures with a resultant shift in the basic structure of both states.
