Sommario/riassunto	This text presents a picture of contemporary family patterns that might produce problems of social and psychopathologic deviance in adolescents. It is the outcome of the teamwork of 32 researchers and therapists, members of the Centre of Strategic Therapy in Arezzo. This work was put together over a period of five years, where the research- intervention group met on a monthly basis under the author's personal supervision, to put together the data gathered from thousands of cases of disturbed adolescents with the aim of better the application of
