

1. Record Nr.	UNINA9910963773003321
Titolo	An assessment of the National Institute of Standards and Technology Center for Neutron Research : fiscal year 2007 / / Panel on Neutron Research, Laboratory of Assessments Board, Division on Engineering and Physical Sciences, National Research Council of the National Academies
Pubbl/distr/stampa	Washington, D.C., : National Academies Press, c2007
ISBN	0-309-18001-5 1-280-96918-0 9786610969180 0-309-11180-3
Edizione	[1st ed.]
Descrizione fisica	1 online resource (21 p.)
Disciplina	539.7213
Soggetti	Neutrons Nuclear physics - Research - United States Nuclear facilities - United States
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di contenuto	""Front Matter""; ""Contents""; ""Summary""; ""Charge to the Panel and Description of the Assessment Process""; ""General Assessment""; ""Facilities and Personnel""; ""NCNR as a User Facility""; ""Science and Technology at the NCNR""; ""Conclusions""
Sommario/riassunto	The book on the NCNR presents a general assessment of the Lab, followed by assessments of its facilities and personnel, its role as a user facility, and its science and technology. The book notes that the NCNR provides a high flux of neutrons to an evolving suite of high-quality instruments, has a substantial and satisfied external user community, and its in-house science and technology is robust.
