Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Neurological impairment: the broader picture -- Acquired brain (head) injury -- Brain injury problems -- Vocational assessment -- Vocational rehabilitation -- Enhancing brain functioning -- Occupational techniques -- Workplace reintegration -- Case studies -- Reducing risk.
Sommario/riassunto	The multi-disability nature of acquired brain injury and its complex effects make the return to employment particularly problematic. This book provides a clear overview of the cognitive and psychological difficulties associated with brain injury and discusses how people affected by it can prepare for and remain in employment.
