Sommario/riassunto	This book, " by and , explores the historical and geographical significance of the ancient Shu Roads in China, focusing on their development over time. It details several routes, including the Golden Ox Road, Yinping Road, and Sichuan West Road, highlighting their strategic importance throughout Chinese history, especially during the Warring States period and the Three Kingdoms era. The authors provide a comprehensive examination of the natural landscapes, cultural sites, and historical events associated with these roads. The book is intended for readers interested in Chinese history, geography, and cultural studies, offering insights into the region's development and the pivotal role these routes played in historical military strategies and cultural exchanges.
