Sommario/riassunto	Andrew Dobson's highly acclaimed introduction to green political thought is now available in a new edition. It has been fully revised and updated to take into account the areas that have grown in importance

since the last edition was published. The third edition includes: \* a comparison of ecologism with other principal modern ideologies, such as liberalism, conservatism, fascism, socialism, feminism and anarchism \* an assessment of the relationship between green thinking and democracy, justice and citizenship \* an exploration of 'sustainable development' addressing the fun
