Sommario/riassunto	The focus of this volume is the crisis of the traditional view of the relationship between words and things and the emergence of linguistic arbitrariness in 17th-century British philosophy. Different groups of sources are explored: philological and antiquarian writings, pedagogical treatises, debates on the respective merits of the liberal and mechanical arts, essays on cryptography and the art of gestures, polemical pamphlets on university reform, universal language scheme, and philosophical analyses of the conduct of the understanding. In the late 17th-century the philosophy of mind discards b
