Sommario/riassunto	D. W. Winnicott and Jacques Lacan, two of the most innovative and important psychoanalytic theorists since Freud, are also seemingly the most incompatible. And yet, in different ways, both men emphasized the psychic process of becoming a subject or of developing a separate self, and both believed in the possibility of a creative reworking or new beginning for the person seeking psychoanalytic help. The possibility

of working between their contrasting perspectives on a central issue for psychoanalysis - the nature of the human subject and how it can be approached in analytic work - is explored
