

1. Record Nr.	UNINA9910964513203321
Titolo	Steel designers' manual / / the Steel Construction Institute ; edited by Buick Davison, Graham W. Owens
Pubbl/distr/stampa	Chichester [England] ; ; Hoboken, N.J., : Wiley-Blackwell, 2012
ISBN	9786613661968 9781613448267 1613448260 9781444344851 1444344854 9781280685026 1280685026 9781444344844 1444344846
Edizione	[7th ed.]
Descrizione fisica	1 online resource (1399 p.)
Classificazione	TEC063000 BAU 510f ZI 7200
Altri autori (Persone)	DavisonBuick OwensGraham W (Graham Wynford)
Disciplina	624.1/821
Soggetti	Steel, Structural Steel in design Designers
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Machine generated contents note: Introduction; The Eurocodes.Part1: Design Synthesis.Single storey buildings.Multi-storey buildings. Industrial applications.Residential applications.Other structural steel applications.Part 2: Steel Technology.Applied metallurgy of steel. Fatigue.Sustainability.Part 3: Design Theory.Analysis.Applicable dynamics.Part 4: Element design.Local Buckling and cross section classification.Tension Members.Columns & Struts.Beams.Plate Girders. Membrane with Compression & Moments.Trusses.Composite Deck Slabs.Composite Beams.Composite Columns.Part 5: Connection Design.

Bolts.Welds.Design of connectionsFOUNDATIONS and Holding-Down Bolt Systems.Part 6: Other Elements.Bearing and Joints.Steel Piles.Floors.Part 7: Construction.Tolerances.Fabrication.Erection.Fire protection and fire engineering.Corrosion and corrosion prevention.Appendix.Index.

Sommario/riassunto

"This classic manual on structural steelwork design was first published in 1955, since when it has sold many tens of thousands of copies worldwide. For the seventh edition all chapters have been comprehensively reviewed, revised to ensure they reflect current approaches and best practice, and brought in to compliance with EN 1993: Design of Steel Structures. The Steel Designers' Manual continues to provide, in one volume, the essential knowledge for the design of conventional steelwork. Key Features: Fully revised to comply with the new EUROCODE standards Packed full of tables, analytical design information and worked examples Contributors number leading academics, consulting engineers and fabricators 'A must for anyone involved in steel design' - Journal of Constructional Steel Research"--
