

1. Record Nr.	UNINA9910964701203321
Titolo	Sustainable practices in surface and subsurface micro irrigation // edited by Megh R. Goyal, PhD, PE
Pubbl/distr/stampa	Toronto, [Ontario] : , : Apple Academic Press, , [2015] ©2015
ISBN	1-77463-338-8 0-429-16144-1 1-77188-017-1
Edizione	[1st ed.]
Descrizione fisica	1 online resource (388 p.)
Collana	Research Advances in Sustainable Micro Irrigation ; ; Volume 2
Disciplina	635.0487
Soggetti	Microirrigation Microirrigation - Management Sustainable agriculture
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Front Cover; CONTENTS; List of Contributors; List of Abbreviations; List of Symbols; Preface; Foreword by Gajendra Singh; Foreword by Miguel Munoz-Munoz; Foreword by R. K. Sivanappan; Foreword by Marvin J. Jensen; Book Series: Research Advances in Sustainable Micro Irrigation; About the Senior Editor-in-Chief; Warning/Disclaime; PART I: SUBSURFACE MICRO IRRIGATION; 1. Subsurface Drip Irrigation: Wetting Pattern Simulation-Part I: Model Development; 2. Subsurface Drip Irrigation: Wetting Pattern Simulation-Part II: Model Validation 3. Micro Irrigation in Egyptian Sandy Soil: Hydraulic Barrier Technique4. Micro Irrigation Design using MicroCAD; PART II: MICRO IRRIGATION RESEARCH ADVANCES AND APPLICATIONS; 5. Subsurface Drip Irrigation in Australia: Vegetables; 6. Mechanics of Clogging in Micro Irrigation System; 7. Water Movement in Drip Irrigated Sandy Soils; 8. Crop Coefficients: Trickle Irrigated Common Beans; 9. Water Requirements for Papaya on a Mollisol Soil; 10. Water Requirements for Tanier (Xanthosoma spp.); 11. Water Requirements for Tanier (Xanthosoma spp.) on a Mollisol Soil 12. Water Requirements for Banana on a Mollisol Soil13. Water

Requirements for Banana on an Oxisol Soil; 14. Water Requirements for Plantains on a Mollisol Soil; 15. Drip Irrigation Management: Plantain and Banana; 16. Biometric Response of Eggplant under Sustainable Micro Irrigation with Municipal Wastewater; Appendices

Sommario/riassunto

This new book, Sustainable Practices in Surface and Subsurface Micro Irrigation, offers a vast amount of knowledge and techniques necessary to develop and manage a drip/trickle or micro irrigation system. The information covered has worldwide applicability to irrigation management in agriculture. Focusing on both subsurface and surface micro irrigation, chapters in the book cover a variety of new research and information on: Irrigation water requirements for tanager, vegetables, bananas, plantains, beans, and papaya Irrigating different types of soils, including sandy soils, wet soils, and moll
