

1. Record Nr.	UNINA9910965271903321
Autore	Curtis Lawrence A
Titolo	A true tale of science and discovery / / Lawrence A. Curtis ; illustraed by Nathan Lee Tanner
Pubbl/distr/stampa	New York, : Nova Science Publishers, c2010
ISBN	1-61761-395-9
Edizione	[1st ed.]
Descrizione fisica	1 online resource (355 p.)
Collana	Environmental research advances series
Disciplina	594/.32
Soggetti	Snails Discoveries in science
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	The start -- The omnivorous snail -- A stylish affair -- A delving into parasites -- The flesh-eating snail -- Snails possessed -- A sexually confused snail -- Sociable parasites -- Old timer -- A 1981-1995 capstone -- New place, new people -- Really old giants -- Parasites in the wilds of Southeastern Rehoboth Bay -- Within-snail battles? -- Distances traveled at a snail's pace -- Parasites and where host snails go and what they do -- How snails here and there get to have different features -- The ending.
Sommario/riassunto	This work gives a down-in-the-trenches view of how knowledge of the biological world increased. It deals with science, but in a way that does not presume that the reader is versed in that area of human knowledge.
