Sommario/riassunto	Many subject matter experts are just that, subject matter experts--not experts in the art of teaching, facilitating, or designing. Thousands of authors, trainers, and speakers have great content, but they lack the skills required to convey their content in a way that inspires learners to

unleash their brilliance and move the learning to practice.. They often spend 70% of their time on WHAT they are going to teach, and 30% of their time on HOW, when they should be spending 30% on WHAT, and 70% on HOW. Their instructional techniques often are at odds with their message of inclusivity, eagerness

#### Sommario/riassunto

Making Gender, Making War is a unique interdisciplinary edited collection which explores the social construction of gender, war-making and peacekeeping. It highlights the institutions and processes involved in the making of gender in terms of both men and women, masculinity and femininity. The ""war question for feminism"" marks a thematic red thread throughout; it is a call to students and scholars of feminism to take seriously and engage with the task of analyzing war. Contributors analyze how war-making is intertwined with the making of gender in a diversity of empirical case studies
