

1. Record Nr.	UNINA9910965524103321
Titolo	Engineering and the advancement of human welfare : 10 outstanding achievements, 1964-1989 / / selected by the National Academy of Engineering on the occasion of its 25th anniversary, December 5, 1989
Pubbl/distr/stampa	Washington, D.C., : Office of Public Awareness, The Academy, c1989
ISBN	9786611300388 9781281300386 1281300381 9780309592451 0309592453
Edizione	[1st ed.]
Descrizione fisica	1 online resource (48 p.)
Soggetti	Space flight to the moon Scientific satellites Microprocessors CAD/CAM systems Diagnostic imaging Composite materials Jet transports Lasers Optical communications Genetic engineering
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"NAE 25."
Nota di bibliografia	Bibliography: p. 46-47.
Nota di contenuto	CONTENTS -- Introduction -- 1 Moon Landing -- 2 Application Satellites -- 3 Microprocessor -- 4 Computer-Aided Design and Manufacturing -- 5 CAT Scan -- Advanced Composite Materials -- Jumbo Jet -- 8 Lasers -- 9 Fiber-Optic Communication -- 10 Genetically Engineered Products -- Further Reading -- Acknowledgements.
Sommario/riassunto	This popularly written booklet contains nontechnical descriptions of 10 major engineering achievements selected by the National Academy of

Engineering on the occasion of its 25th anniversary, December 5, 1989. The achievements are the moon landing, application satellites, the microprocessor, computer-aided design and manufacturing, computer-assisted tomography, advanced composite materials, the jumbo jet, lasers, fiber-optic communication, and genetically engineered products.
