| Sommario/riassunto | HauptbeschreibungThis book contains my articles from 2010. I have tried to examine some of the technical problems in the current oil and gas industry in Iraq. In the geology/geophysics and reservoir engineering section, I used the available information and in some cases, I estimate to fill the gap in the existing data. International contracts usually differ from case to case or from field to field; in Iraq, TSC and PSC still have unclear contract conditions and public information is not enough for the detailed calculation needed for exact NPV and IRR. Additional concerns are the |
