Sommario/riassunto	One of America's leading authorities on China outlines and assesses the implications of the inevitable passing of Mao Tse-tung and the older generation of revolutionary leaders from their position of command in China. Describing the mid-1960's as "a transitional period of great historic significance," the author outlines the basic unsolved problems and unresolved issues that face Peking's leaders, speculates on future changes in Chinese Communist leadership and policies. Part II of the book presents documents pertinent to the developing crisis in China, including "Khrushchev's Phoney Communism," Lin Piao's "Long Live the Victory of the People's War," and "Great Cultural Revolution." China After Mao is based on the Walter E. Edge lectures given at

### Sommario/riassunto

Written for a general audience during a period of intense controversy in the German philosophical community, J. G. Fichte's short book *The Vocation of Man* (1800) is both an introduction to and a defense of his philosophical system, and is one of the best-known contributions to German Idealism. This collection of new essays reflects a wide and instructive variety of philosophical and hermeneutic approaches, which combine to cast new light upon Fichte's familiar text. The contributors highlight some of the overlooked complexities and implications of *The Vocation of Man* and situate it firmly within the intellectual context within which it was originally written, relating it to the positions of Kant, Hegel, Schelling, Schlegel, Jacobi, and others. In addition, the essays relate the text to issues of contemporary concern such as the limits of language, the character of rational agency, the problem of evil, the relation of theoretical knowledge to practical belief, and the dialectic of judgment.
