| Disciplina              | 294.3/375  |
| Soggetti                | Physics - Religious aspects - Buddhism<br>Quantum theory - Religious aspects - Buddhism<br>Buddhism - Doctrines  |
| Lingua di pubblicazione | Inglese  |
| Formato                 | Materiale a stampa   |
| Livello bibliografico   | Monografia   |
| Note generali           | Previously issued in print: 2004.  |
| Nota di contenuto       | Contents; The Participants; Prelude; 1. Experiment and Paradox in Quantum Physics; 2. Philosophical Reflections on Quantum Realities; 3. Space, Time, and the Quantum; 4. Buddhist Views on Space and Time; 5. Quantum Logic Meets Buddhist Logic; 6. Participation and Personal Knowledge; 7. The Relation between Scientific Knowledge and Human Experience; 8. Investigating the World, Pondering the Mind; 9. New Images of the Universe; 10. Origins of the Universe and Buddhist Causality; 11. Science in Search of a Worldview; 12. Knowing and Suffering; Notes; About the Mind and Life Institute; Index; A BC; D; E; F; G; H; I; J; K; L; M; N; O; P; Q; R; S; T; U; V; W; Y; Z |
| Sommario/riassunto      | What happens when the Dalai Lama meets with five leading physicists and a historian? This book documents their discussions about theoretical quantum physics and Buddhist philosophy. This book is a contribution to the science-religion interface, and a useful explanation  |

of our basic understanding of quantum reality.
