Pubbl/distr/stampa	Firenze, Italy : , : Firenze University Press, , 2017
Descrizione fisica	1 online resource (ix, 109 pages)
Collana	Studi e saggi
Disciplina	658
Soggetti	Management Business
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>Management consulting firms are often discussed as being the firms whose core product is knowledge itself. However, despite the fact that consulting firms are generally aware of the value of knowledge for their own organizations and for their clients, the empirical evidence shows that even today the (economic and, above all, cognitive) value-creation potential related to the transition from consulting approaches geared to the transfer of "best practices" (consultant as expert) to consulting approaches geared to the cooperative creation of new knowledge and managerial capabilities (consultant as a facilitator of new managerial knowledge and capabilities creation processes) is rarely consciously perceived and, consequently, is not adequately planned for and exploited. This book interprets management consulting from a knowledge perspective, and proposes a general conceptual framework for investigating and interpreting that potential.</p>

3. Record Nr.	UNINA9910966224603321
Autore	Gordon David M. <1970->

Sommario/riassunto	Nachituti's Gift challenges conventional theories of economic development with a compelling comparative case study of inland fisheries in Zambia and Congo from pre- to postcolonial times.

Neoclassical development models conjure a simple, abstract progression from wealth held in people to money or commodities; instead, Gordon argues, primary social networks and oral charters like "Natchituti's Gift" remained decisive long after the rise of intensive trade and market activities. Interweaving oral traditions, songs, and interviews as well as extensive archival research, Gordon's lively tale is at once a subtle analysis of economic and social transformations, an insightful exercise in environmental history, and a revealing study of comparative politics. Honorable Mention, Melville J. Herskovits Award, African Studies Association "A powerful portrayal of the complexity, fluidity, and subtlety of Lake Mweru fishers' production strategies.... Natchituti's Gift adds nuance and evidence to some of the most important and sophisticated conversations going on in African studies today."-Kirk Arden Hoppe, International Journal of African Historical Studies "A lively and intelligent book, which offers a solid contribution to ongoing debates about the interplay of the politics of environment, history and economy."-Joost Fontein, Africa "Well researched and referenced.... [Natchituti's Gift] will be of interest to those in a wide variety of disciplines including anthropology, African Studies, history, geography, and environmental studies."-Heidi G. Frontani, H-SAfrica
