

1. Record Nr.	UNINA9910966273903321
Autore	Maher J. Peter
Titolo	Papers On Language Theory And History : Volume I: Creation And Tradition In Language
Pubbl/distr/stampa	Amsterdam, : John Benjamins Publishing Company, 1977
ISBN	1-283-31453-3 9786613314536 90-272-8150-5
Edizione	[1st ed.]
Descrizione fisica	1 online resource (191 p.)
Collana	Current Issues in Linguistic Theory
Soggetti	Linguistics Language and languages
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.

## Sommario/riassunto

Interest in word-meaning is on the increase among mainstream linguists again after a half-century of neglect. During this interval progress in phonology and syntax was great, but further progress in these sub-disciplines will remain blocked until it is recognized that the prime functional unit of speech is the word, that the central problem of language theory is lexis. Word-meaning is typically complicated by changes across time; for a theory of language creativity, these effects must be discerned from spontaneous creation. The articles brought together in this volume attempt to illuminate, on the basis of particular lexical studies, the dynamics of perception and word-meaning, of language and mind.
