Sommario/riassunto	Politics today is marked by tension between claims of universal human rights and diversity. From the war on terror to immigration, one of the

major challenges facing liberalism is to understand the scope of equality in a world in which certain peoples are perceived to reject and/or violently resist democratic principles. This book revisits Europe's initial encounter with the Native Americans of the New World to shed light on how the West's initial defense of so-called 'barbarians' has influenced the way we think about diversity today, and elucidate the arguments of exclusion t
