Sommario/riassunto	"Benjamin Franklin Cooling has produced a triumphant third volume to his definitive study of Tennessee and Kentucky in the Civil War. Like his first two volumes, this one perfectly integrates the home front and battlefield, demonstrating that civilians were continually embroiled in the war in intense ways comparable to and often surpassing the violence experienced by soldiers on the battlefield. The impacts of armies, guerrillas, and other military forces on civilians was continual, terrifying, and brutal in nearly all parts of the Confederacy's Heartland." -T. Michael Parrish, Linden
