Sommario/riassunto	Asia has undergone rapid economic transformation over the past two decades. Despite its constant economic growth, the 1997-98 Asian

financial crisis and the resulting surge in unemployment highlighted the vulnerability of national systems that base development solely on economic growth. This book fills a major research gap by exploring the nature, dynamics and functioning of Asian labour markets in eight major Asian economies, including Japan, South Korea, Hong Kong, Singapore, China, Vietnam, India and Malaysia. It examines the type of labour markets that exist in Asia; how they hav
