

1. Record Nr.	UNINA9910966685803321
Titolo	Addressing the threat of drug-resistant tuberculosis : a realistic assessment of the challenge : workshop summary // Robert Giffin and Sally Robinson, rapporteurs; Institute of Medicine of the National Academies
Pubbl/distr/stampa	Washington, D.C., : National Academies Press, 2009
ISBN	9786612454844 9780309148740 030914874X 9781282454842 1282454846 9780309130455 030913045X
Edizione	[1st ed.]
Descrizione fisica	1 online resource (253 p.)
Altri autori (Persone)	GiffinRobert B RobinsonSally
Disciplina	616.9
Soggetti	Multidrug-resistant tuberculosis Tuberculosis Drug resistance Antitubercular agents
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"The Institute of Medicine's (IOM's) Forum on Drug Discovery, Development, and Translation held a workshop in Washington, DC, on November 5, 2008"--p. 2.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Reviewers -- Contents -- Tables, Figures, and Boxes -- Acronyms -- Summary -- Chapter 1. Introduction -- Chapter 2. The Global Spread of Multidrug-Resistant and Extensively Drug-Resistant Tuberculosis -- Chapter 3. MDR TB Transmission, HIV Coinfection, and Transmission Control -- Chapter 4. Diagnosis -- Chapter 6. Infrastructure and Health Care Delivery Systems -- 6 Global Systems for the Purchase and Delivery of TB Drugs -- Chapter 7. Research on the Global Control of TB: Understanding the Role of Drugs, Vaccines, and Funding --

Chapter 8. Strategies for Confronting the Global MDR and XDR TB Crisis  
-- References. -- Appendix A: Agenda -- Appendix B: Participant  
Biographies -- Appendix C: Partners In Health White Paper' stemming  
the Tide of Multidrug-Resistant Tuberculosis: Major Barriers to  
Addressing the Growing Epidemic --

Sommario/riassunto

"Tuberculosis is one of the leading causes of death in the world today, with 4,500 people dying from the disease every day. Many cases of TB can be cured by available antibiotics, but some TB is resistant to multiple drugs--a major and growing threat worldwide. The Institute of Medicine's Forum on Drug Discovery, Development, and Translation hosted a workshop on November 5, 2008, to address the mounting concern of drug-resistant TB. The session brought together a wide range of international experts to discuss what is known and not known about this growing threat, and to explore possible solutions."--
