Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	section 1. Phenomenal consciousness : brain, action and interaction -- section 2. Social cognition, self-control, artifacts and emotions : the role of consciousness -- section 3. Historical perspectives on consciousness in interaction.
Sommario/riassunto	Face to Descartes' rationalism, in the book entitled De antiquissima Italorum sapientia Vico tries to examine non reflexive aspects of thought. According to Vico, the clear and distinct idea cannot originate the cogito as a criterion of truth; moreover, the clear and distinct idea exchanges the intelligere of God with the human cogitare; third, the method of doubt doesn't consider the link, in men, of res cogitans and res extensa and the correlation between mind and body. Fourth, this theory arises from a wrong notion of substance. Following these four
