Sommario/riassunto	Calling for increased civic engagement, this book makes a compelling case for reforms that will democratize American elections and provide more power to the people. Quick-fix plans to "restore democracy" are a dime a dozen. Happily, Reforming the Electoral Process in America: Toward More Democracy in the 21st Century offers a more nuanced approach, emphasizing the value of civic engagement in a democratic society. Author Brian L. Fife situates our current plight in the context of the growth of democracy, from the Founding Fathers through the Jackson era, the enfranchisement of blacks after the Civil War, women's suffrage, and the Voting Rights Act of the 1960s. He reflects on the

work of the Framers as it pertains to voting and elections, compares voting laws and voter turnout in the various states, and offers an analysis of the impact of money in American elections. Ultimately, Fife proposes a blueprint for reform that includes national same-day voter registration, elimination of punch card and mechanical voting machines, reconsideration of felons' voting rights, regional primaries, and the abolition of the Electoral College.

Sommario/riassunto	How did an obscure tribal sport from precolonial Hawaii--one that was nearly eliminated by Christianmissionaries--jump oceans to California and Australia? And how did it become such a worldwide passion, even in places where the surf may be excellent but the society is highly conservative or superstitious about the sea?In Sweetness and Blood - a brilliantly written travel adventure - journalist (and surfer) Michael Scott

Moore visits unlikely surfing destinations--Israel and the Gaza Strip, West Africa, Great Britain, Germany, Indonesia, Japan, Cuba, and Morocco--to find out. Whether he is connecting eccentric surf legend Doc Paskowitz to the Arab-Israeli conflict, trying to deconstruct the terrorist bombing in a nightclub in Bali, or being chased by the German police while surfing a river break in Berlin, Moore masterfully weaves together politics, culture, history, and surfing to create a book like no other.
