Sommario/riassunto

Experts provide important insights on the intent and subsequent outcome of legislated change at the national and local levels in the area of criminal justice and women. Here is a revealing examination of the impact of judicial and legislative changes on the treatment of female victims and offenders in the areas of corrections, domestic violence, sexual assault, and prostitution enforcement. A revealing look at actual case studies demonstrates that the condition of women's lives will not be changed merely by going to court or getting a new law. This is an enlightening book for readers who may believe that discrimination can be eliminated through legal changes alone.
