

1. Record Nr.	UNINA9910967264003321
Autore	Andree Peter <1970->
Titolo	Genetically modified diplomacy : the global politics of agricultural biotechnology and the environment / / Peter Andree
Pubbl/distr/stampa	Vancouver, : UBC Press, c2007
ISBN	1-282-59335-8 9786612593352 0-7748-5558-4
Edizione	[1st ed.]
Descrizione fisica	1 online resource (337 p.)
Disciplina	343/.0786606
Soggetti	Agricultural biotechnology - Law and legislation Transgenic organisms Environmental law, International Precautionary principle
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Limited edition of 500 copies.
Nota di bibliografia	Includes bibliographical references (p. [295]-313) and index.
Nota di contenuto	Contents; Preface; Acknowledgments; Frequently Used Abbreviations; Introduction; 1 Theorizing International Environmental Diplomacy; 2 The Biotech Bloc; 3 The Ideational Politics of Genetic Engineering; 4 Biosafety as a Field of International Politics; 5 Staking Out Positions; 6 A Precautionary Protocol; 7 The Politics of Precaution in the Wake of the Cartagena Protocol; Notes; References; Index; A; B; C; D; E; F; G; H; I; J; K; L; M; N; O; P; R; S; T; U; V; W; Z
Sommario/riassunto	When genetically engineered seeds were first deployed in the Americas in the mid-1990s, the biotechnology industry and its partners envisaged a world in which their crops would be widely accepted as the food of the future. Critics, however, raised a variety of social, environmental, economic, and health concerns. This book traces the emergence of the 2000 Cartagena Protocol on Biosafety and the discourse of precaution toward GEOs that the protocol institutionalized internationally. Peter Andre explains this reversal in the "common-sense" understanding of genetic engineering, and discusses the new debates it has engendered.
