

1. Record Nr.	UNINA9910967276503321
Autore	Gerlach Birgit
Titolo	Clitics between syntax and lexicon / / Birgit Gerlach
Pubbl/distr/stampa	Amsterdam ; ; Philadelphia, : J. Benjamins, c2002
ISBN	9786612161988 9781282161986 1282161989 9789027297549 9027297541
Edizione	[1st ed.]
Descrizione fisica	1 online resource (294 p.)
Collana	Linguistik aktuell = Linguistics today, , 0166-0829 ; ; v. 51
Disciplina	415
Soggetti	Grammar, Comparative and general - Clitics Romance languages - Clitics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references (p. [241]-253) and indexes.
Nota di contenuto	Clitics between Syntax and Lexicon -- Editorial page -- Title page -- LCC data -- Contents -- Acknowledgements -- Abbreviations -- Chapter 1: Introduction -- Chapter 2: The status of Romance clitics between words and affixes -- Chapter 3: Clitics in the lexicon -- Chapter 4: Clitic sequences -- Chapter 5: Syntax at the interfaces: Clitic placement and clitic doubling -- Chapter 6: Summary -- References -- Appendix -- Language index -- Name index -- Subject index -- Linguistik Aktuell/Linguistics Today.
Sommario/riassunto	<p>As a typical interface phenomenon, clitics have become increasingly important in linguistic theory during the last decade. The present book contributes to the recent discussion and first provides a comprehensive overview of clitic sequencing, clitic placement and clitic doubling in the major Romance languages. In addition, new data from a northern Italian dialect are introduced. The author then gives a critical summary of the current morphological analyses of clitic phenomena. She also discusses recent Optimality-theoretical analyses of clitic combinations and clitic placement and shows how these analyses can be improved upon when we also consider a morphological treatment of clitics. This book provides innovative solutions to clitic phenomena within the</p>

framework of a constraint-based morphological theory and will be of interest not only to morphologists, syntacticians and those working on the grammar of Romance languages, but also to linguists who are interested in the organisation of the grammar and the lexicon.
