Recent years have seen a growth in the numbers of studies of substance abuse and dependence in adolescence, focusing on prevalence, risk factors, comorbidity, course and outcome. At the same time, numerous prevention and intervention strategies have been developed. Substance Abuse and Dependence in Adolescence presents a comprehensive review of state-of-the-art empirical and practical information on this topic. Cecilia A. Essau, along with an eminent group of international researchers and clinicians, summarises the most recent empirical findings and state-of-the-art knowledge on
