Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	Farhana Qazi draws on her background as a pioneering counterterrorism professional and a devout Muslim to offer an insider's view of what drives girls and women to join radical Islamic movements and how we can keep them from making this terrible choice. The first Muslim woman to work for the US government's Counterterrorism Center, Qazi found herself fascinated, even obsessed, by the phenomenon of female extremists. Why, she wondered, would a girl from Denver join ISIS, a radical movement known for its mistreatment of women? Why would a teenage Iraqi girl strap on a suicide bomb and detonate it? From Kashmir to Iraq to Afghanistan to Colorado to London, she discovered women of different backgrounds who all had their own reason for joining these movements. Some were confused, others had been taken advantage of, and some were just as radical and

dedicated as their male counterparts. But in each case, Qazi found their choices were driven by a complex interaction of culture, context, and capability that was unique to each woman. This book reframes their stories so readers can see these girls and women as they truly are: females exploited by men. Through hearing their voices and sharing their journeys Qazi gained powerful insights not only into what motivated these women but also into the most effective ways to combat terrorism—and about herself as well. “Through them,” Qazi writes, “I discovered intervention strategies that are slowly helping women hold on to faith as they struggle with versions of orthodox Islam polluted by extremist interpretations. And in the process, I discovered a gentle Islam and more about myself as a woman of faith.”

Sommario/riassunto	Now that curb cuts, braille elevator buttons, and closed caption television are commonplace, many people assume that disabled people are now full participants in American society. This book tells a rather different story. It tells how America's disabled mobilized to effect sweeping changes in public policy, not once but twice, and it suggests that the struggle is not yet over. The first edition of From Good Will to Civil Rights traced the changes in federal disability policy, focusing on the development and implementation of Section 504 of the Rehabilitation Act of 1973. Ri
