Nota di bibliografia	Includes bibliographical references (p. 67-72).
Nota di contenuto	Intro -- Reviewers -- Contents -- Introduction -- Supply and Demand in the Health Care Workforce -- Supply and Demand in the Oncology Workforce -- Solutions to the Oncology Workforce Shortage -- Summary -- References -- Acronyms -- Appendix A Workshop Agenda -- Appendix B Workshop Speakers and Moderators.
Sommario/riassunto	The American Society of Clinical Oncology (ASCO) predicts that by 2020, there will be an 81 percent increase in people living with or surviving cancer, but only a 14 percent increase in the number of practicing oncologists. As a result, there may be too few oncologists to meet the population's need for cancer care. To help address the challenges in overcoming this potential crisis of cancer care, the National Cancer Policy Forum of the Institute of Medicine (IOM) convened the workshop Ensuring Quality Cancer Care through the Oncology Workforce: Sustaining Care in the 21st Century in Washington, DC on October 20 and 21, 2008.
