

1. Record Nr.	UNINA9910967472603321
Autore	Mauskop Alexander
Titolo	Migraine and headache / / Alexander Mauskop
Pubbl/distr/stampa	Oxford ; ; New York, : Oxford University Press, c2009
ISBN	0-19-770761-0 1-282-54386-5 9786612543869 0-19-970964-5
Edizione	[1st ed.]
Descrizione fisica	1 online resource (106 p.)
Collana	Oxford American pain library
Disciplina	616.8/4912
Soggetti	Migraine Headache
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Previously issued in print: 2009.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Classification and diagnosis of headaches -- Pathophysiology of migraine and other headaches -- Diagnostic procedures -- Nonpharmacological/alternative approaches -- Pharmacological therapies -- Interventional therapies -- Management of common conditions -- Special populations -- Typical cases.
Sommario/riassunto	Headaches afflict 70% of the population with 12% (30 million adult Americans) suffering from migraines. Including co-morbidities, up to 30% of patients seen in primary care settings suffer from migraines. Medical care provided to these headache sufferers is often suboptimal. Part of the Oxford American Pain Library, this concise handbook aims to provide primary care doctors and other health care professionals with practical information about the diagnosis and management of headaches in their patients. The book covers the classification of headaches and provides shortcuts to making an accurate diagnosis, along with recommendations for the proper utilization of diagnostic procedures. The author discusses all common headache conditions: migraine; chronic migraine; status migraine; cluster and related headaches; tension headaches; sinus headaches; cervicogenic headaches; secondary headaches, and neuralgias.
