Sommario/riassunto	Peter Doherty recounts his unlikely path to becoming a Nobel Laureate, revealing how his nonconformist upbringing, sense of being an outsider, and search for a different perspective have shaped his life and work. Beginning with his humble origins in Australia, Doherty shares his early interests and describes his award-winning, influential work with Rolf Zinkernagel on T-cells and the nature of immune defense. In prose that is amusing and astute, Doherty offers a rare insider's look at the realities of being a research scientist. He lucidly explains his own scientific work and the select
