Sommario/riassunto	In War of Annihilation, noted military historian Geoffrey P. Megargee provides a clear, concise history of the Germans' opening campaign of conquest and genocide in 1941. By drawing on the best of military and Holocaust scholarship, Megargee dispels the myths that have distorted the role of Germany's military leadership in both the military operations themselves and the unthinkable crimes that were part of them.

Sommario/riassunto	As Buy-Outs became larger and more levered in the mid 2000's the European Leveraged Finance market experienced a wave of innovations. This research is concentrating on the capitalisation process of leveraged Buy-Outs in Europe, taking the perspective of an equity investor. We embark on the quest for the optimal capital structure by constructing an integrated model based on traditionalist (irrelevance hypothesis) and modernist (tax, risky debt and costly contracting hypothesis) views.
