

1. Record Nr.	UNINA9910968043703321
Titolo	Engineering studies at tribal colleges and universities / / Steering Committee for Engineering Studies at the Tribal Colleges
Pubbl/distr/stampa	Washington, D.C., : National Academies Press, c2006
ISBN	9786610349371 9780309180962 0309180961 9781280349379 1280349379 9780309657938 0309657938
Edizione	[1st ed.]
Descrizione fisica	1 online resource (72 p.)
Disciplina	371.829
Soggetti	Engineering Ethnology - Study and teaching
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	""Acknowledgment of Reviewers""; ""CONTENTS""; ""1 Statement of Work""; ""2 Introduction""; ""3 Opportunities and Challenges for Tribal Colleges and Universities""; ""4 Questions Addressed in This Study""; ""5 Recommendations""; ""Appendix A""; ""Appendix B""; ""Appendix C""; ""Appendix D""; ""Appendix E""; ""Appendix F""; ""Appendix G""; ""Appendix H""; ""Appendix I""
Sommario/riassunto	This study was designed to provide expert, objective, independent advice to 11 tribal colleges that are working together to offer engineering programs. The chief data-gathering activity was a one and one-half day workshop. Reasons for establishing a four-year engineering program at a TCU were outlined in the workshop "making it possible for American Indian students to complete a four-year engineering degree entirely within the tribal college system; reducing the high attrition rate of American Indian students who attend mainstream educational institutions; and providing an engineering program that is culturally relevant to tribal students.
